

2019 Fun Couples Golf Association: Welcome back to another year of Couples Golf. We received many compliments for the couple's golf association, and it's growing, so people must be having FUN! One complaint that we heard most regarded slow play. We know that with 24-36 couples playing on one nine it will be somewhat slow. This many couples, speed of play should take around 2 hours to play maybe more. Hopefully you realize this is a fun outing to enjoy the golf, outdoors and friends! Do not expect to play in less than two hours or you will get disappointed and frustrated. Here are a couple tips to speed up play.

◆ **Play ready golf, if you're at your ball and ready, hit!**

◆ **Be a gentleman ♥ and let the women tee off first on most holes. This speeds up play especially when men are waiting for the green to clear, for example. The only holes this doesn't work well on is 7, 8, 14, 15, and 20.**

◆ **If you have more than one open hole in front of you speed up or let faster groups behind you play through.**

◆ **If you want to play before 6pm. Come out early and tee off before 4pm. Check schedule, some days if you play early you must tee off before 9:30am. These dates are marked on the schedule with an * (asterisk)**
